Tumor Grade: Grading Systems & Treatment Options The factors used to determine tumor grade can vary between different types of cancer. Tumor grade is not the same as the stage of a cancer. Cancer stage refers to the size and/or extent (reach) of the original (primary) tumor and whether or not cancer cells have spread in the body. Brain Tumor Grades & Types - ABC2 Primary brain tumors are named according to the type of cells or the part of the brain in which they begin. For example, most primary brain tumors begin in glial cells. This type of tumor is called a glioma. Breast cancer cells form primary tumors on ex vivo four ... Primary breast cancer tumor growth in four-dimensional model All three breast cancer cell lines were grafted onto the rat extracellular matrix scaffold and formed perfusable nodules. Multiple tumor nodules formed on each scaffold of varying sizes.
